

# CHAIRMAN OF THE BOARDS

# MYLEX

## THE Graphics Card for IBM PC/ XT You've been waiting for !!!

Using a single expansion slot, the MYLEX CHAIRMAN replaces the IBM monochrome display/parallel printer adapter and color/graphics adapter card. In addition, the MYLEX CHAIRMAN is fully compatible with all PC/XT software for monochrome, color graphics and alpha-numeric modes. That's right, no changes and no modification required to your software to incorporate IBM standard graphic modes on most monochrome monitors.

## THE MYLEX CHAIRMAN CARD FEATURES:

- Graphics on IBM monochrome monitor
- Shades of green on monochrome monitors
- Graphics on color monitors
- Parallel printer interface
- Can support non-IBM monitors

Move up  
with these  
**Special Enhanced  
Features:**

- On card character RAM for custom definition of character set.
- Graphic modes are supported on IBM monochrome or color monitors.
- Up to 16 shades of green on monochrome monitors.
- 320 x 200-16 color graphics mode.
- 640 x 200-4 color graphics mode.
- 640 x 400-B/W graphics mode.
- A MYLEX software library on diskette supports enhanced features and is included.

Full emulation of IBM's display adapters,  
without modification or additional software.

# "THE CHAIRMAN"

## GRAPHICS BOARD

"The Chairman" by Mylex Corporation offers outstanding enhancements to the graphics capability of the IBM personal computers, PC and XT. The Chairman, using a single expansion slot, combines in one board color or monochrome display options. More importantly, The Chairman allows graphics modes on your

monochrome monitor in four shades of green with no changes to existing standard four color software. If you elect, using the Mylex software library diskette you have the capability of producing sixteen color graphics on your color display or sixteen shades of green graphics on your monochrome display.

### SPECIFICATIONS:

#### COLOR MONITOR

<b>Text Mode:</b>	8x8, 80x25 8x8, 40x25

Thank you for your inquiry on the "MYLEX CHAIRMAN" graphics card. Enclosed is the literature you requested.

The "MYLEX CHAIRMAN" offers the IBM PC and the IBM PC XT user a unique application: the ability to display color graphics on a monochrome monitor in four shades of green. This is accomplished using existing color graphics software. In addition, using the MYLEX software diskette, you can define your own special 128 character font and add enhanced graphics features. (The 640 x 400 enhanced mode is not yet available).

The suggested retail price is \$595.00. The "MYLEX CHAIRMAN" will be available through selected MYLEX dealers.

Let me know if I can be of any further assistance.

Sincerely,

A handwritten signature in black ink, appearing to read "Joe Heimbuch".
